Mainguard Security Services (S) Pte Ltd
Ponnosamy Kalastree
Managing Director

Mainguard Security Services is the flagship of the Mainguard Group of Companies. It was established in 1974 with the objective of providing effective security services to both the private and public sectors. With this aim, the company confined its attention initially to the physical security needs of its clients by providing reliable security officers to its assignments. Very soon, it acquired a sound reputation as the premier security services provider in Singapore.

Over the years, having gained much experience in the business of security, the company diversified into related businesses with equal growth potential. Today, Mainguard continues to provide quality services and develop its core competencies under its umbrella of business units.

As one of the most established security agencies in Singapore with more than 36 years of experience in this business, Mainguard boasts a proven track record in handling assignments from all industry sectors, private, public or residential. It benchmarks its quality of work against international standards and constantly keeps up-to-date with technological development relevant to the security industry.

Mainguard will continue to look for opportunities to diversify into security-related businesses such as investigations, training, security technology and consultancy both in Singapore and the Asia Pacific region.
